

## **Re-cycle Project**

1. Re-cycle, [www.re-cycle.org](http://www.re-cycle.org), is a charity. It has been operational for some years and has sent over 30,000 bicycles to Africa.
2. Their aim is to send second hand bikes that are still usable to Africa where a bicycle can make such a difference to people's lives. A bicycle can carry 5 times the load that a person can and is 5 times as fast.
3. The re-use of otherwise unwanted bikes is more efficient than scrapping them for base metals and manufacturing new.
4. Re-cycle helps to set up partnerships in Africa to provide an organisational structure, ongoing maintenance and to give those it helps the self respect of being more self reliant.
5. Rotary, [www.ribi.org](http://www.ribi.org), is the leading international service organisation whose members aim to use their professional skills and energy to improve the lives of those within their local community and of others around the world.
